FISHERS SOCCER CLUB HALLOWEEN CLASSIC TOURNAMENT SECURITY PLAN

The Fishers Soccer Club and Tournament Committee are dedicated to ensuring the safety of all players, coaches, referees, and spectators as participants in the Fishers Soccer Halloween Classic Tournament. Because not every security issue can be addressed or foreseen, this plan has been developed to mitigate potential issues and identify responsibilities and procedures where appropriate.

Team Responsibilities

FSC and the Tournament Committee operate under the anticipation that officials from each team will aid in monitoring its players, coaches, parents, and spectators to ensure appropriate behavior and the reinforcement of a positive soccer experience. Should any player, parent or other spectator become unruly, obnoxious, physically violent, or maintain continued use of foul language, a team representative may request Field Marshal support.

Field Marshal Responsibilities

Each field or locally grouped fields will be designated to a Field Marshal. Field Marshals are easily identified by fluorescent vests, and all Field Marshals have radio contact with the Tournament Director and on-site law enforcement personnel. If game-related incidents occur, Field Marshals will report the incident over the communications radios and request support from the Tournament Director and/or Head Referee. For off-field issues, the Field Marshal will immediately report unruly individuals and/or related incidents to the Tournament Director.

Tournament Director Responsibilities

The Tournament Director has final resolution authority for all security issues. If contacted by a Field Marshal to address a security issue, the Tournament Director will attempt to resolve the issue. If unable to resolve the issue, the Tournament Director will request on-site uniformed law enforcement officer support. To maintain organizational control, the Tournament Director, or his designated representative, is the only person authorized to request uniformed officer support.

Uniformed Law Enforcement Officer Responsibilities

Uniformed law enforcement officers monitor the tournament premises 24 hours a day and are available to support security issues as required. Two officers are available during the tournament operating hours, and one officer provides overnight security to the tournament site. Officers are provided radios to monitor Field Marshal and tournament committee communications, and may provide incident support if they determine their presence is warranted. If the Tournament Director requests support for a security issue, the uniformed officer will assist in resolving the issue. If the issue is unable to be resolved amicably, the uniformed officer has the authority to escort individuals from the tournament site.

Any questions regarding this security plan, its implementation, or responsibility actions may directed to the Tournament Director.
